PROFILE

I am a self-taught JavaScript developer, who would love to join a team. When I'm not at my day job, I keep myself entertained by working on my own projects, learning new technologies and answering questions on StackOverflow.

EXPERIENCE

JAVASCRIPT DEVELOPER
FREELANCER | OCT 2017 - ONGOING

- Developed an app for a client that enables users to take a 3D tour around an apartment that hasn't been built yet. Over 600 tours has been already generated with this app.

SALESMAN
PROFI BIKE | FEB 2013 - ONGOING

- Responsible for sales and repairs
- In free time developed an app that increased employees' productivity

SELECTED PROJECTS

3D ESTATE
OCT 2017 - ONGOING

- Application for generating 3D tours for in-browser viewing. I worked as a sole developer, provided client with both graphical and programming interface for 3D tour creation and visual aspect of tours.

PRICE TAG GENERATOR
JUL 2017 - SEP 2017

- Single page application with real-time database, used by bike shops for managing prices and printing pricetags in desired format.

SCRABBLISTA
MAR 2017 - MAY 2017

- Personal project used for finding Polish words from given letters in popular Scrabble game. Uses Trie data structure to store Polish dictionary and depth-first search algorithm to effectively find matching words.
